

Caron Business Solutions – Company Overview

Caron Business Solutions is a business process consulting firm and provider of business management software and services that specializes in Sage Accpac ERP and Microsoft Dynamics business systems.

Caron focuses primarily on companies with more complex, enterprise-level reporting needs, extending out-of-the-box solutions to meet industry or international requirements. Caron has grown from only three people five years ago to twenty today, and plans to maintain its position as one of the fastest growing Sage Accpac Business Partners. In 2008, Sage Software ranked Caron #1 for client satisfaction out of over 2,000 Sage Solution Providers in North America.

Caron provides technology advice, guidance, business software products, and services to clients who want the benefits of new technology without having to staff up their own IT team.

Since its establishment, Caron has grown to one of the largest, most successful Sage Accpac Solution Providers in Canada.

Our People

All of our senior consultants have professional accounting designations, and we have the highest number of certified consultants for Sage CRM in British Columbia. In fact, many of our staff members joined Caron directly from the Sage Accpac organization.

At Caron, we pride ourselves on providing a personal approach to business, honest appraisal of our clients' needs, good professional advice, and comprehensive services and products.

Clients

Our corporate clients range from small businesses with under 5 employees to multi-million dollar international firms. In the public service sector our clients are not-for-profit organizations, credit unions, educational institutions, trade unions, private and regional hospitals, and municipal governments. Over the past five years, we have undertaken special projects for both the British Columbia Provincial Government and Environment Canada.

Philanthropic events/charities/sponsorships

We proudly support the following organizations:

- Carbon Footprint – supporting reforestation efforts by local communities in the Great Rift Valley, Kenya.
- Vancouver Computer Literacy Society – working with individuals and corporations to refurbish old computers and donate them back to the community
- Heart & Stroke Foundation – furthering the study, prevention and relief of heart disease.

At Caron we believe that being involved and contributing to community projects is key to a successful society.
